"I Have Had a Very Good Night," Said General Grant to His Wife.

Close of the Grand Army Encampment ---The News from Washington To-day.

General Grant.

By Telegraph to THE SENTINEL.

MOUNT MCGREGOR, N. Y., June 26.—"I slept three hours continuously last night," said General Grant to his wife when she entered the sick room this morning. "I have had a very good night," he subsequently said, "in all right hours."

The G. A. R.

By Telegraph to THE SENTINEL.

PORTLAND, June 26.—The encampment is gradually breaking up. Many posts have started for home and there was an almost continuous march of bands and veterans towards the depots for several hours. The principal event to-day was an excursion and clam bake at Little Chebeague island.

Rioters Discharged.

By Telegraph to THE SENTINEL.

ST. LOUIS, June 26.—The four railroad men of Moberly, Mo., who were cited last week to appear before the United States court for contempt in inciting a riot and endangering the Wabash company's property at Moberly, were discharged by the court, Judge Treat deciding that if the men had committed any offense it was against the Western district court of Missouri, his court not having jurisdiction at Moberly.

The Wheat Crop.

By Telegraph to THE SENTINEL.

MILWAUKEE, June 26.—S. W. Talmadge has prepared his monthly crop report and the second estimate on the probable wheat yield in the United States for 1885. He says there is no question as to the damages and loss to the winter wheat of this section of the of the country. The falling off of 160,000,000 bushels in winter wheat from last year is a calamity. The present condition of spring wheat is good, but there must be favorable weather until harvest to produce the amount of wheat shown in the present estimate, which is: Spring wheat, 121,000,000 bushels; winter wheat, 210,000,000 bushels; total, 331,000,000 bushels. Making a total shortage, as compared with 1885, of 82,000,000 bushels, and a shortage, as compared with the average for five years past, of 130,000,000 bushels.

The Boat Race.

By Telegraph to THE SENTINEL.

NEW LONDON, Ct., June 25.—Not in the history of the Yale-Harvard Aquatics has the interest manifested previous to any race been brought to such a high state of excitement as it was before to-day's contest. Early last night all the hotels were over-crowded and lodgings were not to be had at any price. The betting is now about even. An unusually large amount of money has been put up. At 8 o'clock the water was in excellent condition.

Both crews spurted at the finish, but Harvard crossed the line fifteen lengths ahead, an easy winner. At the finish the Harvard crew appeared fresh and in fine condition, while in the Yale boat Peters and Parot appeared to be blown, and Storrs pulled in a rather listless style.

First mile—Harvard, 5.50; Yale, 6.00. Second mile—Harvard, 12.14; Yale, 12.48. Third mile—Harvard, 18.53; Yale, 19.45. Fourth mile, Harvard won, 25.12½; Yale, 26.28.

The official time was, Harvard, 25 minutes, 15½ seconds; Yale, 26 minutes, 30 seconds.

The National Capital.

By Telegraph to THE SENTINEL.

WASHINGTON, June 26.—The president has recognized Karl Pallier as consul of the German empire, at Cincinnati, for the states of Indiana, Kentucky, Michigan, Ohio and West Virginia, and Pre. McConville consul of Hayti, at Bangor, Maine.

PLANS FOR A NEW VESSEL.

WASHINGTON, June 26.—Under a general invitation of Secretary Whitney to the officers of the navy and others, to submit plans to him for the construction of new steel cruisers, Admiral Porter has for some time past been engaged in planning a vessel which he hopes will prove a model in her class. She is to be 250 feet long, and at the same time a ram, torpedo boat and a gun boat. It will go forward or backward with equal facility and carry very heavy armament. It is expected she will attain great speed.

SOUTH AMERICAN TROUBLES.

A report has been received at the navy department from Admiral Jouett announcing the failure, by the parties interested, to settle the disputes in the United States of Colombia. He says the political differences between the parties are of such a nature that a peaceable settlement is quite impossible at this time. Hostilities are likely to continue indefinitely. The government troops, he reports, are marching on Baranquilla. The revolutionary leaders, the admiral says, are leaders of the Liberal party in Colombia. The troubles on the Isthmus, Admiral Jouett thinks, result from local politics, and from the fact that many depraved men congregate there. He anticipates hard fighting in Colombia.

PAYMASTER SMITH.

The secretary of the navy to-day announced the following detail of the officers to compose the court to try Paymaster General Smith. The court will convene at the navy department Wednesday, July 8. Commodore A. A. Semms, president; Commodore W. W. Queen, Commodore George E. Belknap, Captain James A Greer, Captain William A McCann, Captain A. P. Cooke, Pay Director James D. Murray, Pay Director James Fulton, Capt F. M. Bunce, Pay Director C. Schenck, Pay Inspector Rufus Parks, Paymaster R W. Allen The charges on which Paymaster General Smith is to be tried are based on the findings of the court of inquiry recently appointed to investigate his office. They are: First, the scandalous conduct tending to the destruction of good morals: second, culpable inefficiency in the performance of his duty.

Will Hang.

By Telegraph to THE SENTINEL.

LOUISVILLE, June 25.—Jordan Taylor, colored, who waylaid and murdered Sally Saunders, his mistress, in a field near Hopkinsville, Kentucky, October 8, 1884, will be hanged to-morrow.

DICKENS has been much criticised for his apparent acceptance of the fact of spontaneous combustion, but Sir W. Gull lately testified to a surprising case before the committee of the House of Lords on intemperance. A large, bloated man, who was suffering from difficulty of breathing and great distention of the venous system, died at Guy's Hospital. At the post-mortem the following day there was no sign of decomposition, and the body was believed to be distended with gas. "When punctures were made in the skin," said Sir William, "and a lighted match applied, the gas which escaped burned with the ordinary flame of carburetted hydrogen. As many as a dozen of these small flames were burning at the same time."

A LETTER from Mexico says the poverty of the country may be traced directly to the slovenly system of farming which prevails. The agricultural resources are enormous. Though only one-fifth of the best land in the great plateau is under cultivation, it supports millions of people with a style of farming that would produce starvation in the best sections of New York or Pennsylvania. The Mexican's sole conception of the utility of plowing is to scratch up enough loose dirt to cover the seed; in a great majority of cases the ground is never touched after planting.

A lad named Cook climbed into a wagon on Melita street, this noon. His approach frightened the horses and they ran away, spilling him out and inflicting injuries that may prove fatal. The boy's father is a machinist in the electric light works.

WINTER WINDS.

Its all right for poets to sing the praises of the beautiful snow, and the merry sleigh bells, and the ringing skates on the glassy ice, but they can't fill the bill with that sort of stuff when one is sitting with his feet in a tub of hot water, his head done up in flannels, and with mustard plasters on both sides of his chest. What a person needs then is a thorough dose of Kidney-Wort to act as a cathartic, for nothing will so quickly relieve that congestive, feverish condition which comes of a hard cold. Often these colds cause bilious attacks, lame backs, disordered kidneys, rheumatism, catarrh, etc. Kidney-Wort can be relied on to bring back a healthy condition.

KNOXVILLE, Tenn., June 26.—The jury in the Johnson-Henry murder case had not been able to agree up to 10 o'clock last night. After Five Years.

By Telegraph to THE SENTINEL.

VINCENNES, Ind., June 26.—In 1880, the Starch Works of J. A. and J. H. Cunningham, of this city, were burned by sparks from a locomotive. The Evansville and Terre Haute railway was sued for $200,000 damages. A verdict was found for the defendent. The plaintiff appealed to the supreme court and for four years that body has had the case under consideration. Yesterday it reversed the decision of the lower court and sustained the plaintiffs.

OFFICIAL PAPER COUNTY AND CITY.

FRIDAY, JUNE 26, 1885.

THE president expects to spend the month of August and part of September away from Washington, if business will permit.

THE Massachusetts republican state committee decided to hold the state convention in Springfield, Wednesday, September 30.

THE New York *Graphic* says: "Arthur Preller had an insurance of $20,000 on his life. It is inferred, accordingly, that he committed suicide, and afterwards packed his body in the trunk in which it was found."

ON July 1 the work in the money order division of the office of the sixth auditor of the treasury will be divided up, and the bureau made to consist of three divisions, instead of one. The chiefs of the two added divisions will be appointed soon.

A PRESS telegram from New Haven, Conn., states that while Vice-President Hendricks and Professor Wayland, of Yale college, were out riding, a collision with another carriage threw Mr. Hendricks into the street, covering him with dust, but inflicting no serious injury.

THE executive committee of the International Medical association is holding a secret session in Chicago. About fifty delegates are present. The conference is stated to have reference to some united course of action in the event of any general epidemic in the United States.

SECRETARY MANNING said to a reporter yesterday: "Under the present administration, matters were to be conducted on a business-like basis, and as the democratic party was to be held responsible for the action of its officials, it was but just that its own people should hold positions."

MAJOR RENO, who participated in the battle of the Little Big Horn, at which General Custer was killed by the Indians, had a talk with Sitting Bull, the commander of the savages, relative to the number of warriors engaged. According to the estimate of the chief, over 5,000 Indians were present.

BY the abolishment of the supreme court commission, Hon. George Bicknell is retired from office for the first time in over thirty years. Coming to Indiana about 1850, he was soon thereafter elected prosecuting attorney, then by successive elections, for twenty-four years circuit judge, then two terms in congress, and lastly, for four years one of the supreme court commissioners.

THE city election of Chicago is to be tested in the courts. The bill of particulars against Carter Harrison has been filed in the clerk's office. The bill is a very lengthy one, covering forty-seven printed octave pages. The points presented have all been discussed and published repeatedly since the election, the principal ones being the charges of fraudulent voting by different means and many alleged evidences of gross irregularities in making the returns.

THE presence of the newspaper compels every man to read, and having learned to read he learns to look for facts and draw his own conclusions. The writer who can only bring style, no matter how polished, or only fancy, no matter how soaring, has a small audience. He must add something to the fund of current information, all the better if dressed in well chosen words, but not to be considered if lost in words. His mere opinion we do not care much for, and his self-consciousness bores us. The essay is now something for school commencements. Even the magazines are laying aside their old character. The successful ones are those which give us papers on events of real interest—battles of the late war, on living people, on the inside spring which starts and carry on important movements. The newspaper feeds the mind with real happenings; it trains the faculties to be ready, acute, versatile. After the art of reading a printed page has been mastered, the mind can achieve a very good education by means of one of the great journals.

An Astute Canine.

"You talk about dogs," said the judge, "you talk about dogs—I can tell you the funniest story about a dog."

"Did you know the dog?" said the doctor.

"I did."

"Was it a terrier, or a pointer, or a bull-dog?"

"It was a Dandie Dinmont."

"Good," said the doctor; "they're a very truthful breed."

"This dog belonged to a friend of mine who used always to take him out with him."

"A bad habit," put in the doctor; "you should never let a dog know too much."

"The dog used to wait outside for him when he went in to call on a friend. One night they were a very merry party and they kept it up late. My friend got very drunk. The dog finally got restless and began to howl. A champagne bottle just passed his nose and he smelt it and shut up. About 2 o'clock in the morning my friend came out. He said good-night, shut the door, walked in by the garden gate all over the flower-beds, and finally, unable to get out, he lay down on a rose-bush and went to sleep. The dog watched by him till the milkman came along in the morning, picked him up and took him home."

"That's nothing," said the doctor.

"You just wait a minute. Two or three nights later he went and called on his friend again and took the dog with him. The dog waited outside a little while and began two bowl. Another champagne bottle was thrown at him. He smelt it, winked to himself, and trotted off. He went home, scratched at the door till the servant-girl opened it, attracted my friend's wife's attention, made her follow him to a pile of planks, and whined till they got out a very long and broad one. Then he directed them to where his master was, and when the door-bell rang and the door opened the revelers found the dog, my friend's wife, the servant, and a stretcher. Sick Headache.

Thousands who have suffered intensely with sick headache say that Hood's Sarsaparilla has completely cured them. One gentleman thus relieved writes: "Hood's Sarsaparilla is worth its weight in gold." The study of medical science reveals a multitude of remedies for prevalent diseases, and yet by universal consent it is acknowledged that for the cure or prevention of diseases arising from impurities of the blood or for diarrhœa, stomach, liver, kidneys and intestines there is none so efficacious as Mishler's Herb Bitters. Mrs. J. M. Douglass, of Terre Haute, Ind., writes: "It cured me of dyspepsia, from which I had suffered for years."

Usage is the higher law of pronunciation in England.

In the Hop Plasters the virtues of fresh hops are combined with strengthening and stimulating balsams, and its cures of weak back, pain in the side, rheumatism, neuralgia or pain in the chest are simply marvelous, it being more efficacious and thorough than any liniment or liquid remedies. You'll say so after using.

About as bad a box as a man can be in is a coffin.

We all say that we feel the necessity in the spring of toning up our system and no better tonic than Dr. Nichol's Bark and Iron can be found. The medical profession have prescribed it for more than twenty-five years. 15-4w

Enemies Ready to Strike.

Every family is constantly in danger from impure water, unripe fruit, unwholesome food, contagious diseases, cramps, cholera morbus, coughs and colds, indigestion and simple fevers. In such cases a bottle of Parker's Tonic kept in the house renders it unnecessary to call a physician. Nothing so good for children.

ACHES! PAINS!

"I ache all over!" What a common expression; and how much it means to many a poor sufferer! These aches have a cause, and more frequently than is generally suspected, the cause is the Liver or Kidneys. No disease is more painful or serious than these, and no remedy is so prompt and effective as

MISHLER'S HERB BITTERS.

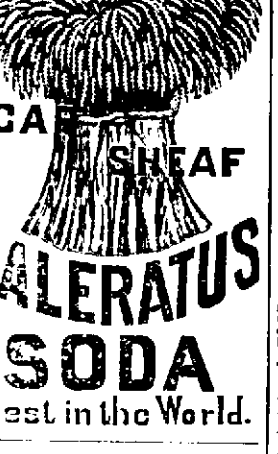

No remedy has yet been discovered that is so effective in all KIDNEY AND LIVER COMPLAINTS, MALARIA, DYSPEPSIA, etc., and yet it is simple and harmless. Science and medical skill have combined with wonderful success those herbs which nature has provided for the cure of disease. It strengthens and invigorates the whole system.

Hon. Thaddeus Stevens, the distinguished Congressman, once wrote to a fellow member who was suffering from indigestion and kidney disease: "Try Mishler's Herb Bitters, I believe it will cure you. I have used it for both indigestion and affection of the kidneys, and it is the most wonderful combination of medicinal herbs I ever saw."

Eczema!

For the benefit of suffering humanity, and in heartfelt gratitude at the wonderful result, I deem it only my duty to give this unsolicited testimony in favor of Swift's Specific. My wife has been afflicted with hereditary Eczema or Salt Rheum from her infancy. It has increased in intensity with each succeeding spring, and being somewhat skilled in medicine myself, I tried every remedy I could think of for years—Sarsaparilla combined with every form of Potassia, "Cuticura," pills of every kind, and hundreds of other remedies, lotions and alkali washes of every known kind, but they all gave only temporary relief. During the spring of 1884 her lower extremities became so inflamed and sore that she was obliged to keep them constantly coated with a cover of "Fuller's Earth," mixed wet and allowed to dry on. Among other things, she was inflicted with a periodical nervous headache, occurring regularly every seven days, sometimes followed by an intermittent fever for weeks at a time, so that her life became a burden to her.

This spring I determined she should take S. S. S. and follow strictly the directions in regard to dose, diet, etc. This was about seven weeks ago. After taking the first large bottle the disease seemed to increase; the burning, itching and inflammation became unbearable. She, however, persevered in the use of the medicine. After taking the second bottle the inflammation began to subside. After the third bottle the inflammation disappeared and sore spots dried up and turned white and scaly, and finally she brushed them off in an impalpable white powder resembling pure salt. She is now taking the sixth bottle, three tablespoonful four times daily. Every appearance of the disease has gone, and her flesh is becoming soft, white and smooth again; and what is more, her periodical headaches have disappeared and she is now, at 53 years of age, enjoying the only good health she has known for upwards of 40 years. No wonder she declares with emphasis that every bottle of S. S. S. is worth a thousand times its weight in gold.

Any further information concerning her case will be cheerfully given by herself at her residence, 175 Mullett street, or by me.

What a Mississippi Pilot Says.

Capt. D. M. Riggs, who is well known at New Orleans and along the Mississippi river, says: "I have been suffering from dyspepsia for the past five years and from broken rest, by severe pains in the bowels and kidneys. I tried every medicine recommended for these diseases, without success. At last I used a bottle of Brown's Iron Bitters, which proved a perfect success in my case." It cures all kidney, liver and malarial diseases.

Col. Robert Ingersoll.

The last man in the world to find fault with his Creator is Col. Robert Ingersoll. He is rich, healthy, fat if not greasy, and has escaped those acute sufferings which he states have afflicted the rest of mankind since the ill-judged introduction of Christianity. He thinks that the wisdom and benevolence of the Creator have been very much overestimated, and that if he could have the management of affairs he would soon make this world a paradise in which there should be no poverty or pain, and all mankind would become just as rich, fat, greasy, and dissatisfied with everything as he is himself.

Col. Robert Ingersoll is a melancholy example of the influence of too much property upon the growth of an ungrateful heart and a captious spirit. Had he only a few real troubles, like owing his landlord or milkman, he would not go about abusing his Maker and suggesting improvements in the motions of the planets, and the wise allotments of human discipline. What he needs is for one hour to define what Thomas De Quincy finely calls the hieroglyphics of suffering.

The earnest desire of Col. Ingersoll to make the Creator of this world retire from all active direction of affairs, we fear, will not be realized. We trust that the rest of us are not so entirely forgotten by the Divine wisdom that we shall escape those needed sufferings so wholesome to our souls, in spite of Col. Ingersoll's protest against the rank injustic of all corrections and disciplines. The poor sewing girl, as Col. Ingersoll suggests, ought not to suffer as she does, but if her sufferings can only be alleviated by first depriving her of a heavenly Father, the remedy is worse than the disease. It would be like that celebrated case where the father cuts his little boy's head off to cure him of squinting.

One of the useful results of a long life, if one retains his mental faculties, is to realize how much better things have been planned for us than we could have planned them for ourselves. What we thought was good fortune has often proved so, and out of disappointments and sufferings have come a lasting content.

Col. Ingersoll is a smart man, and after making all allowances for his ability, we shall venture in closing to modestly suggest to him that perhaps he does not know quite as much as his Creator.—*Providence Journal.*

Fort Wayne Paint and Color Works,

No. 12 West Columbia Street Fort Wayne, Indiana.

To Painters

And others wanting First-class Paints: Do you know that you have in Fort Wayne a Manufacturer of Mixed Paint and Grinder of Colors, where you can buy your Paints from first hand instead of paying the middle man his profits, which are from 25 to 331 per cent. O. L. STARKEY, the Painter and proprietor of the Fort Wayne Paint and Color Works, came to Fort Wayne in April, 1856, and is identified as one of the old citizens who has helped build up Fort Wayne, and his knowledge of Paints and the composition of pigments to form different shades and tints is well-known to the public, and his long practical experience in painting gives him the knowledge of Paints that a mere dealer cannot have for he does not know anything about Paints, as he buys them sealed up and he cannot tell you what it takes to make this or that shade. All he knows is what the label on the can says. Neither can he tell you shades that will or will not fade. By buying your Paints of O. L. STARKEY you can get all the information you want. I am making Liquid - Paints in all shades and colors; also the same shades and colors in paste form, the same thickness as white lead and requires thinning down the same as white lead. In making the different shades my formulas are all registered giving the amount of each color it takes to form certain shades all thoroughly mixed together in the powder mills, then wet down and run through a mixing machine, and from there to the mills where it is all ground together making a pigment that cannot be made by hand. Call or send and get some of my sample cards of colors and tints; also see elevations of gothic houses colored up with four and five shades, which will give you a good idea how to paint and ornament the outside of your houses.

I say again, do not buy of the middle man if you want to save money. I will guarantee my prices and quality of goods with any manufacturer in the United States.

THE CITY.

Hay is a plentiful article on the market.

There will be a big market to-morrow morning.

The Fort Wayne Masons did not celebrate St. John's day.

Have your money ready for THE SENTINEL collectors to-morrow.

William Beverforden has opened a butcher shop on Williams street.

Mrs. F. J. Healy is at home from Cleveland, where she has for some time visited relatives.'

Among the attractions at Island Park during the Assembly this year, will be the Rev. Henry Ward Beecher.

H. L. Martin and family will leave Bluffton for Lebanon, Indiana, where they expect to locate. Mr. Martin is a bright attorney.

Miss Flora E. Weed, teacher in the Central Grammar school, will shortly leave for her old home in Connecticut to spend the school vacation.

The Hollywood people opened at the Academy last night to a nice audience. They appear again to-night and to-morrow night in a catchy program.

The Brothers' school, of the Cathedral parish, closed a very successful scholastic year this morning. The exercises at the finish were quite interesting and instructive.

Yesterday C. L. Centlivre, of the French brewery, took the Terre Haute and Lafayette Sængerfest societies on a pleasure excursion up the St. Joe river on his steamer.

The indications for the lower lake region, as reported by the weather bureau at Washington to THE SENTINEL are as follows: Warmer, fair weather, winds generally southerly, falling barometer.

Herbert Tomlinson is now located at Chicago. A member of THE SENTINEL staff thanks Mr. Tomlinson for his photograph in skating uniform. The young man will continue to wear the championship belt.

St. Augustine's academy, of the Cathedral parish, was closed for the summer this afternoon. A matinee for children will be given to-morrow, and Monday evening a splendid entertainment will be given at Library hall. THE SENTINEL will publish a program.

The supreme court of Ohio, decided yesterday that the receiver of the Nickel Plate railroad should pay Shether & McGourkey, of New York, $200,000 per year rentals of $6,000,000 worth of rolling stock used on the road. Shether & McGourkey sued for $400,000, the sum named in a contract made three years ago.

The Angola *Herald* says: "The United States court, at Fort Wayne, one day last week was in session ten hours. The notes of the stenographer filled 250 pages, making over 60,000 words, an average of more than 100 a minute. Allowing for the usual delays, the reporter was compelled to write at the rate of 150 words per minute. And yet, the legislature of Indiana thinks $5 per day an exorbitant price to pay for such labor."

Duesenbury, the fellow who sells beer by the quart on a little spot of ground known as Round island, situated in Sylvan lake, near Rome City, was lodged in jail a few days ago for violating the liquor law. He did not remain long in the "jug," as the evidence against him was not strong enough to keep him there. A ten dollar bill settled the matter up in full, and Duesenberry is again at his place of business administering to the wants of all who drink.

The Nickel Plate line has issued the following notice: "The Rome, Watertown and Ogdensburg railroad, Ogdensburg and Lake Champaign road, Portland and Ogdelsburg road and the New York Central and Hudson River railroad companies will not accept less than their proportion of 15 cents per 100 pounds on thirteenth-class freight from Chicago to points taking Boston rates reached via Northern England route via Syracuse. From other points on same basis."

Mr. Herbert Durand, the advertising agent of the Wabash, has a vivid imagination. His principal advertisement is a picture in which the Wabash is represented in the act of annihilating time. Since he got out the picture, Time with his scythe has overtaken the company and cut off the heads of many of the employes. Time has also beaten the paymaster of the line about a month and a half and is still flying onward with the speed of a ghost. Old Time with his scythe and hour glass is an ugly customer for even an enterprising railroad to subjugate.

Mr. Howe, the prominent Lima banker, is in the city.

There was a dance at Linderman's hall last night.

Marshal Meyer is looking after a crazy man on Hoffman street.

W. F. Jordan, of Findlay, Ohio, is the guest of Will McKinnie.

Rosetta Arlington was not convicted of assaulting Jennie Dixon, a coon.

There was a big train load of emigrants west via the Pittsburg this morning.

Henry Schreck was acquitted of the charge of stealing a ring, noted elsewhere.

Prof. Otto Schmidt and wife will leave next week for Indianapolis for a visit with friends.

Col. John I. White and wife and Mrs. K. H. Wade and family arrived in the city this afternoon.

A. C. Trentman, wife and daughter were registered at the Grand hotel, Indianapolis, yesterday.

A Pittsburg freight train encountered some trouble at Ada, Ohio, last night and sixteen cars were derailed.

THE SENTINEL collectors will call on subscribers to-morrow. We trust those in arrears will respond promptly.

The Northeastern Indiana Medical association will hold it fifteenth annual meeting at Kendallville on the 30th inst.

Sophia McMahon has been permitted to build a one and a half story frame house on lots 1 and 2 Rockhill's second addition for $550.

M. P. Lonacre, of Fort Wayne, was yesterday chosen a vice president at the State Sunday School association now in session at Lafayette.

Rev. S. A. Northrop, pastor of the First Baptist church, who has been spending a month's vacation in the east, will return home to-morrow.

During the parade of the Forepaugh circus at Flint, Mich., the other day, one employe of the concern was run over by the mammoth car and killed.

Col. I. B. McDonald, of Columbia City, represents the 12th congressional district at the Grand Army of the Republic meeting now in progress at Portland, Maine.

Walter Phoenix, a song and dance artist, was arrested last night for a nameless crime. Mayor Muhler sent him to jail for twenty-five days. The filthy fellow should be driven from the town.

John Bright, Q. C., of Birmingham, England, made a pleasant call at THE SENTINEL office this morning. Mr. Bright is not especially an attorney for the Koehler estate, but is in that business. He has just secured possession of the estate of Charles Harris for his heirs in England. Mr. Harris died some time ago at Van Wert, leaving property in Paulding county, Ohio, and money in the Fort Wayne banks aggregating some $65,000. The children of Mr. Harris' first wife claim the entire property, and are ousting the second wife, who, they allege married Harris on his deathbed to get control of his property.

Patched Up.

The coming together at Michigan City yesterday of General Freight Agents W. H. McDoel, of Louisville, New Albany and Chicago, and S. B. Sweet, of the Wabash, to investigate and right the difficulties between the two lines regarding switching charges, ended in matters being patched up amicably on both sides. The Wabash restores the old rates and the lines also adopted a new schedule of freight rates to go into effect July 1. This latest agreement was by far the most important of the two entered into, as both roads, it is charged, have been slashing each other.

The New Medical Law.

The secretary of the state board of health has already asked the attorney general for his interpretation of the new medical law, with especial reference as to what constitutes a "reputable medical college," from which a practitioner must graduate. It is understood that a number of physicians of the various schools have also made up a series of interrogations regarding the law, which will be submitted to the attorney general, and that official will be extremely lucky if he succeeds in giving an opinion which will not offend some of the various schools of medicine. The provisions of the bill are susceptible of various constructions.

St. Augustine's Academy.

The closing exercises of St. Augustine academy will take place at Catholic Library hall on the evening of June 29. An interesting feature of the evening will be an exhibition of the work lone within the past year in the secluded studio of the academy. The exquisite taste and artistic skill of the young ladies displayed in oil and water colors, will elicit the warmest admiration from those who appreciate home talent. The exercises will begin at 7:30 sharp.

Religious.

The quarterly meeting of the Free Methodist church, on Creighton avenue, east, commences to-night. Services will be held as follows: Preaching to-night and to-morow night at 8 o'clock. Sabbath services: 9:30 a. m., love feast, followed by the usual services; 4:30 p. m., preaching on the court house square; 8 p. m., preaching at the church.

JOSEPH HARTER, Pastor.

IN A GLORIOUS WAY.

Closing Scenes and Incidents of the Great Sængerfest—The Parade and Picnic.

This is the closing day of the Indiana Sængerfest and the weather was all that could be desired. Hundreds of people thronged the streets and the city was as gay as a picnic party. The procession formed at 9:30 and moved after 10 o'clock.

Capt. C. Hettler and his aides led the way and then came the police under Capt. Hugh M. Deihl. Speigel's band headed the Sængerbund society and visiting singers. The Indianapolis ladies were in carriages and looked their sweetest. The second rank was headed by the City band, then come the veteran soldiers, Sion S. Bass post G. A. R., and Anthony Wayne post G. A. R. The fire department was in gala attire. The city officers and members of the council were in carriages and then came citizens generally.

The parade was a picture and ladies in white waved their handkerchiefs and flags at the handsome fellows in the line of march. The line of march named yesterday was followed and a great crowd is picnicing at the Tivoli garden, where music, song and speech making is the order of the day.

THE CLOSING CONCERT.

A great audience assembled at the Princess to hear the closing concert and a grand a grand concert it was. It seemed as if the good will of the people had spread itself over to the stage and inspired the musicians with a generous rivalry to outdo themselves and each each other. The selections were somewhat less rigid than usual and the result was another reminder that popular music must be served to festival audiences.

An instance of this was the cornet solo by Mr. Austin. He had the good sense to give a popular selection, was recalled and gave a more popular selection, was recalled again and played Yankee Doodle with variations. This played "the dickens" with the audience, and for a while it was uncertain which would prevail, the tune or the uproar.

"La Gazza Ladra," by the orchestra, was another popular piece and was loudly recalled. The orchestra more than sustained its good repute.

Miss Kellogg favored the crowd with Rodes' "Air and variations" and some new English songs, receiving her accustomed encore, and responding with her accustomed amiableness.

Mr. Babcock also received the usual recall for his work, and so did Mr. Webber.

The Haydn Quartet was treated in the same manner, and Mr. Sherwood covered himself with glory. Piano playing in such a large place has its disadvantages, as we remarked yesterday, but such was Mr. Sherwood's remarkable playing of Liszt's Polonaise that his auditor's were spell-bound and would not be satisfied until he re-appeared, when he played the "March from Tannhouser.

The mænnerchor was somewhat weakened in numbers, but sang better than at the previous concerts.

On the whole the sængerfest may be set down as a success. Such a venture is to Fort Wayne people a novelty, nothing like it in magnitude having ever been undertaken here before, and no such entertainment for quality was expected. Should the societies ever decide on visiting us again with a similar enterprise, we are certain that the experience of the managers and people in this festival will have taught them how to make a sængerfest as successful financially as this one was artistically.

SÆNGERFEST ECHOES.

The chorus last night consisted of 150 voices.

The Sængerfest did not sustain itself. What the shortage is cannot now be stated.

A party of pretty girls again listened to the sængerfest concert from an adjoining lawn.

A few saloon men who refused to go on the Sængerfest guarantee fund were boy-cotted by the singers.

Mr. Anselm Fuelber penned excellent accounts of the Sængerfest for the *Staats Zeitung*. Mr. Fuelber is a very scholarly fellow.

Rosenbeker's orchestra left for Chicago at 2 o'clock last night via the Nickel Plate. They had a special car attached to a fast through freight.

O. L. Perry sent excellent reports of the sængerfest to the Associated Press of the United States." He justly occupied a place in the reporter's box.

The visitors have been royally entertained here and acknowledge the fact handsomely. This is the greatest advertisement Fort Wayne ever had.

In company with Mayor and Mrs. Charles F. Muhler and Mrs. C. A. Zollinger, Miss Kellogg took a pleasant drive in and about the city yesterday.

Mayor Muhler was very attentive to the prima donna, Miss Kellogg. Old bachelors and dudes envied his position and candidates for the mayoralty are numerous.

William Hahn, a square, honest fellow, and one of the main men in the Sængerbund society, is disgracefully attacked by the *Journal*. Mr. Hahn's excellent reputation will not suffer, however.

Webber, Sherwood and Babcock never read newspaper criticisms until they finish their engagement in a city. Miss Kellogg read criticisms on herself yesterday and she did not appear her best last night. She said the newspaper talk worried her.

Sig. Charles Webber has a standing offer to sing in Italian opera with Mapleson. Miss Emma Nevada wants Mr. Webber to sing first tennor to her next season. He has the refusal of a liberal offer from the "sage brush linnet" who is now in England.

Mr. Sherwood was entertained very pleasantly at the mansion home of Mr. John Mohr last evening. At midnight Mr. Sherwood left for Evansville, where he gives a piano recital before the State Teachers' association to-night. Then Mr. Sherwood goes to Boston.

Miss Kellogg, Sig. Webber and Mr. Babcock left for Boston this morning. Mr. Babcock sings in the New Old South church choir and Mr. Webber is tenor in the Union Park church. Until recently Mr. Webber sang at the Cathedral of the Emaculate Conception, in Boston.

The Arion society tendered their guests a handsome reception last night. A cornet solo by Mr. Austin, a violin solo by Prof. Juck, a tenor solo by Sig. Webber, and a comic song by the Arion sextet were features of the evening. A nice luncheon was served at midnight, and then dancing was the order for an hour.

Prof. Otto Schmidt deserves to wear the laurel crown. His direction of the sængerfest was perfect. He put life into the great fest, and quits the scene with unstinted praise from everyone who witnessed the concerts.

Liability of a Cashier's Bondsmen.

The supreme court yesterday affirmed the decision of the White county circuit court in the suit of the Logansport National bank against Noah S. LaRose and others, who were securities on the bond of Oscar M. Goodwin, the defaulting cashier. Judgment was taken against them for about $15,000. The decision sustaining it was by Judge Mitchell, Niblack and Howk concurring and Elliot and Zollars dissenting. Goodwin lost his money in John Condon's gaming room.

Death of James B. McDonald.

This morning occurred the death of Mr. James B. McDonald, at his home, No. 18 Monroe street. The deceased was the father of R. T. McDonald and was seventy-eight years of age. All of his useful life was spent in Fort Wayne. He was a devout believer in the Presbyterian faith and was an elder in the First church. His life has been very successful and Fort Wayne bears evidence of his enterprise. His funeral will probably occur Sunday, but the hour has not been fixed.

The Missing Mrs. Harley.

Although the excitement over the mysterious disappearance of Mrs. Charles Harley, of Delphi, has abated, the husband has quietly continued the search, but he has given up all hopes that she is alive. It is now thought that she drowned herself in the Wabash, and as soon as the river reaches low water mark Mr. Harley will have it dragged between Logansport and this city. The Fort Wayne police have the woman's picture in their gallery.

State Board of Equalization.

The state board of equalization resumed its sessions yesterday morning after a week's vacation, and listened to arguments from Judge J. I. Best, of Waterloo, representing the Lake Shore and Michigan Southern and Fort Wayne and Jackson roads; John T. Dye, the Indianapolis and St. Louis, and Colonel Poppleton, of Ohio, the Bee line.

THE SENTINEL collectors will call on all subscribers to-morrow.

WARRING SPIRITS.

A Hidden Treasure Causes a Row in the Spiritualistic Fold.

There is quite a devoted band of spiritualists in Fort Wayne and they regularly hold their seances in dark parlors and dimly lighted rooms. At one of these sittings, a short time ago, a revelation was made, and the select circle gleaned from the friendly spirit that a box of gold was hidden in the east end of the city. Two of the disciples were of quick perception and located the treasure on the premises once occupied by Squire Debois, on East Lewis street. A. J. Bagley, who relates the story, says the hidden fortune was quickly brought to the surface by the two men referred to, and although they now roll in wealth like Monte Christo, they will not divide with the other members of the spirit army and a serious row is the result. The disappointed people say they will take the matter before the grand jury and are awfully positive the treasure was unearthed, because they found the spot, put hands in the hole, looked at the indentations made by the pick and spade. There is nothing of a "Doubtful Thomas" nature about their claims.

The Local Labor Troubles.

The Knights of Labor held a monster meeting at Driscoll's hall last night and were addressed by "U. K. 10," the spokesman of the Springfield and Moberly men. Fourteen men withdrew from the Knights of Labor.

Nearly 100 men are at work in the Wabash shops and 150 will be found at their benches Monday. John Dickey and Charley Axter went to work to-day. They are Labor Knights. Christ Cook resigned his position as a machinist.

Quite a number of Kerr Murray employes went to work this morning and it is probable all the men will return to labor Monday as negotiations are now pending towards a settlement, Mr. Cressler agreeing to let the men return to work on the wages they abandoned. No official action has been taken on this matter.

The Andrews *Express* says the present strike on the Wabash is due to the action of A. E. Screiber, of Springfield, and John Slater, of Fort Wayne. These men made demands of Mr. Barnes and threatened a strike if he did not comply, the labor unions knowing nothing of the matter until the lockout come. The *Express* says: "To their assumed and unpermitted right to speak for the various assemblies along the line, is due the lockout and strike and the discharge of hundreds of men."

William Haskins, a brakeman on the Pittsburg, had his right hand crushed while coupling cars at Columbia City this morning. He lives here.
